

83,000

hours of product performance testing each year

STRENGTH IN NUMBERS

- Product development team with **650** years of experience
- **145** year culture of innovation
- Manufacturing and distribution in over **20** countries

Researching, testing, checking, analyzing, confirming, investing. That's what we do every day to make sure we are delivering the quality and innovation you've come to expect from a world leader in protective coatings. Innovations that allow you to return to service faster, extend your assets' lifecycle and reduce your environmental footprint. With 145 years of experience and manufacturing and distribution in 20 countries, leave nothing to chance.
